

Represents 850,000 workers in the U.S., Canada, and the Caribbean

The combined strength of active and retired members of the unified union exceeds 3 million members

I.W.W. Founded in Chicago June 27, 1905

Largest Trade Union in Britain and Ireland with 1.5 million members

Los Mineros represents 180,000 workers in Mexico

United Steelworkers Local 1010 2011 Union Calendar

ONE BIG UNION

This year's calendar is dedicated to the Industrial Workers of the World (Wobblies) whose motto in 1905 was "an injury to one is an injury to all" and workers of the world Unite.

Workers Uniting

Workers Uniting is the name of the new International Union created by Unite the biggest Union in the UK and the Republic of Ireland and the USW the biggest private sector in the US and Canada. At the USW Constitution Convention in 2008 Leo Gerard and Derek Simpson General Secretary of Unite's Amicus section signed the agreement clearing the way for the creation of Workers Uniting, the worlds first Global Union.

Los Mineros

June 20, 2010 The USW and Los Mineros (Miners Union in Mexico) announce that we will form a joint commission to define the process of creating a unified North American organization as well as explore possible global unification.

ArcelorMittal Global Joint Health & Safety Committee

On 3rd June 2008 LN Mittal signed with the USW, International Metalworkers' Federation and representatives from its affiliated unions around the world a groundbreaking agreement designed to increase involvement in achieving and maintaining the highest safety standards at all ArcelorMittal plants around the world.

As you can see to deal with a global company you need a Global Union and the USW is truly becoming a Global Union and the Wobblies would be proud of us.

WE MAKE THE JOB SAFE OR DON'T DO IT

I start each meeting with safety because your safety and the safety of your co-workers is the most important job each and every day. As President of this Local I have no greater responsibility and obligation than the safety of my members.

Lastly I want to wish Ivan Agosto and Fidel Azcona a long and happy retirement, and one day I will join you....but not today Steve!

In Solidarity

Tom Hangraue

Workers Uniting is the name of the new international union created by Unite - the biggest union in the UK and the Republic of Ireland and the USW - the biggest private sector union in the US and Canada.

WHAT IS 'WORKERS UNITING'?

Workers Uniting is the union of 3 million members of Unite and the USW working together to protect their jobs, pay and benefits in the face of the ever increasing power of multinational companies. Global corporations are driving down workers' earnings in every country by playing workers off against each other. Workers Uniting fights back for working families.

HOW WILL WORKERS UNITING FIGHT BACK?

Through sharing information, coordinated cross-border activities, Workers Uniting empowers its members. We combine our expertise and knowledge in collective bargaining and political action to protect and advance our members' interests in the workplace and beyond.

Workers Uniting has already brought many groups of working people together in companies engaged in negotiations with positive results.

www.workersuniting.org

HOW IS WORKERS UNITING RUN?

Workers Uniting is a fully functional and registered workers union in the UK, USA, Ireland and Canada, with the ability to fully represent all of its members. It is governed by a steering committee with equal membership from each participating union.

WHAT'S NEXT FOR WORKERS UNITING?

Workers Uniting is a platform for a truly global union. We aim to attract unions in every country to participate and build the strength and influence of workers across the world.

HOW CAN YOU GET INVOLVED?

The workers Uniting website includes regular updates on forthcoming activities: www.workersuniting.org For more information on any element of Workers Uniting or to see how you can get involved you can contact: info@workersuniting.org

Alternatively you can contact:

Saba Mozakka, Unite: 00 447768 693 953.

JOINT DECLARATION
THE UNITED STEELWORKERS (USW)
AND THE NATIONAL UNION OF MINE, METAL, STEEL AND RELATED
WORKERS OF THE MEXICAN REPUBLIC (SNTMMSSRM)
JUNE 20, 2010

The United Steelworkers (USW) and the National Union of Mine, Metal, Steel and Related Workers of the Mexican Republic (SNTMMSSRM), known as Los Mineros, strongly condemn the cowardly and brutal attack by Mexican federal police on the striking mineworkers and their families at Cananea and on the family members of mineworkers at Pasta de Conchos on the night of June 6, 2010.

For five years, we have watched the Mexican Federal Government engage in a systematic campaign of political persecution against the National Union of Mine, Metal, Steel and Related Workers of the Mexican Republic and its elected leader, Napoleon Gomez Urrutia. This campaign has included beatings, assaults and the deaths of union members; false and unfounded criminal charges, a systematic campaign of defamation in the mass media, violations of trade union autonomy, strikebreaking, imposition of company-controlled protection unions, and industrial homicide due to health and safety violations.

The motive for this persecution is simple: Los Mineros have fought for and won real increases in wages and benefits that increase workers' purchasing power and offer them the hope of a better living standard for their children. It has won these improvements in both Mexican and multinational companies, through fair and honest bargaining and when necessary through the exercise of the right to strike.

Los Mineros' success in raising Mexican workers' wages threatens a fundamental policy of the Calderón government - a policy of keeping wages low and workers suppressed in order to attract foreign investment. This policy has generated great wealth for corporations, and great poverty for Mexican workers. To defend this policy, the Calderón government has violated basic worker rights to organize, to bargain collectively, and to strike - rights established in the Conventions of the ILO and other international human rights instruments that Mexico is legally bound to observe. Mexico is now a pariah in the international trade union movement.

Side Two – Joint Declaration by USW and SNTMMSSRM on June 20, 2010

The USW and Los Mineros share common ideals and a common vision. We believe that respect for the democratic exercise of trade union rights is a prerequisite for genuine political democracy. We believe that the organized power of working men and women is necessary to check the avarice of corporations and political elites. We believe that only through the solidarity of organized workers around the world can we build a better future for all of our children.

Together, Los Mineros and the USW have put these shared values of democracy, equality, and solidarity into practice. On April 13, 2005, our organizations signed a Strategic Alliance in which we committed to building power by increasing communication, collaborative and coordination across our national borders.

Today we take this alliance a step further. The USW and Los Mineros announce that we will form, with our Executive Boards' involvement, a joint commission to define the process of creating a unified North American organization as well as explore possible global unification representing one million workers in Mexico, Canada, the United States and the Caribbean.

The commission comprises five members of the International Executive Board of the United Steelworkers and five members of the National Executive Committee of the National Union of Mine, Metal, Steel and Related Workers of the Mexican Republic. Its charge includes proposing immediate measures to increase strategic cooperation between our organizations as well as the steps required to form a unified organization.

Today Los Mineros and the USW renew our common commitment to democracy, equality, and solidarity for working men and women throughout North America and throughout the world. Together we will stand. Together we will fight. Together we will win.

Approved and executed in Toronto, June 20, 2010

Leo W. Gerard,
International President, USW

Napoleon Gomez Urrutia,
General Secretary, SNTMMSSRM

**USW Local 1010 Member
Emilio Albert De La Garza
June 23, 1949 - April 11, 1970**

**Medal of Honor Citation
EMILIO A DE LA GARZA**

Lance Corporal, U.S. Marine Corps
Company E, 2d Battalion, 1st Marines, 1st Marine Division.
Place and Date: Near Da Nang, Republic of Vietnam, 11 April 1970.
Entered Service at: Chicago, 111. Born :23 June 1949, East Chicago, Ind.

For conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty while serving as a machine gunner with Company E. Returning with his squad from a night ambush operation, L/Cpl. De La Garza joined his platoon commander and another marine in searching for two enemy soldiers who had been observed fleeing for cover toward a small pond. Moments later, he located one of the enemy soldiers hiding among the reeds and brush. As the three marines attempted to remove the resisting soldier from the pond, L/Cpl. De La Garza observed him pull the pin on a grenade. Shouting a warning, L/Cpl. De La Garza placed himself between the other two marines and the ensuing blast from the grenade, thereby saving the lives of his comrades at the sacrifice of his life. By his prompt and decisive action, and his great personal valor in the face of almost certain death, L/Cpl. De La Garza upheld and further enhanced the finest traditions of the Marine Corps and the U.S. Naval Service.

TAPS

Fading light dims the sight,
And a star gems the sky,
Gleaming bright.
From afar drawing nigh,
Falls the night.

Day is done, gone the sun,
From the lake, From the hills,
From the sky.
All is well, safely rest,
God is nigh.

Then good night, Peaceful night,
Till the light of the dawn
Shineth bright,
God is near, do not fear,
Friend, good night.

Workers Memorial Day April 28, 2010

“Worker safety should not depend on a company’s or manager’s good will, it should be the law.”
Tom Hargrove

“They were all heroes. Not because they gave their lives. None of them Gave their Lives. They were taken, Brutally ripped away. They were heroes because of how they lived,” said International Health, Safety, and Environment Director Mike Wright.

Dedication of USW Local 1010 “Memorial Hall”

December 4, 2009

On December 4, 2009 USW Local 1010 Unveiled the Memorial Stone honoring the ten men, who had their lives taken May 30, 1937. During the “Little Steel Strike”.

The SWOC on May 26, 1937 called a strike on three of the “Little Steel”, Republic, Youngstown Sheet and Tube and Inland Steel. Youngstown and Inland both closed their plants. The action involved about eighty-five thousand steelworkers. Republic Steel South Chicago Plant continued to operate at reduced levels. Republic was housing scabs in a wire mill on site, they had also stockpiled food and cots. Plant management was in close contact with the Chicago Police officials to try and insure continuous operations at that plant.

March 1, 1937 John Lewis of the Steel Workers Organizing Committee (SWOC) and Myron Taylor of U.S. Steel signed the first contract in the steel industry. Highlights were five dollars a day, eight hour day, time and one-half for overtime work and binding arbitration.

The “Little Steel” group included Bethlehem, Republic and National Steel Corporation’s, Youngstown Sheet and Tube, Inland Steel and American Rolling Mill Company’s matched the wage and hour provisions of the U.S. Steel agreement, but went no further as they held strong anti-union attitudes, opposed recognition of the union and refused to sign a contract, relying on a theory that the Wagner act required only negotiation and not a written agreement.

The tactics of the newly formed Republic Steel Corporation, namely their chairman of the board Tom Girder were ruthless, and include among other things, domination of employees through his “Employee Representation Plan” a company union in an attempt to divert employees from true collective bargaining. Other tactics included Espionage, firing of union workers, hiring of strikebreakers, amassing a stockpile of industrial munitions such as tear gas, guns, and clubs in preparation of the company anticipated strike.

Memorial Day (Sunday) May 30, 1937 started with a picnic, and rally attended by hundreds of Steelworkers and their families. The Workers, wives and children marched from the rally to the Republic Steel gates in an effort to set up a picket line. Once across the prairie they were confronted by the Chicago Police who refused passage on to the plant gate. During discussions with the Police shots rang out, the police were firing on the workers, wives, and children. In the movie film shot of the event you can see the police shooting on the people, and chasing them with Billy clubs. Ten workers were killed, and many others injured, including women, and children.
